Revocation: Effective July 1, 2003, all persons and business entities renewing a license with the Division of Professional Registration are required to have paid all state income taxes and are also required to have filed all necessary state income tax returns for the preceding three years. If you have failed to pay your taxes or have failed to file your tax returns, your license will be subject to immediate revocation within 90 days of being notified by the Missouri Department of Revenue of any delinquency or failure to file. This requirement was enacted in House Bill 600 of the 92nd General Assembly (2003) and was signed into law by the governor on July 1, 2003.

Suspension: In 1997, the legislature enacted sections 454.1000 through 454.1031, RSMo, setting forth a process for suspending professional licenses if a person has failed to pay court-ordered child support. In the 2003 legislative session, the General Assembly transferred the legal enforcement of these provisions directly to the Missouri attorney general's office, effective July 1, 2003. You should be aware that the attorney general is now aggres-

sively pursuing licensed professionals who are delinquent on child support obligations. Any failure to pay such obligations could result in the suspension of your license, following proceedings in circuit court.

*Subdivisions (7) and (8) are identical; compact approved by ASPPB Board in 2016 has different language for subdivision (8).

337.150. Rulemaking.

1. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.
2. If a majority of the legislatures of the compact states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compact state.
3. Rules or amendments to the rules shall be adopted at a regular or special meeting of the commission.
4. Prior to promulgation and adoption of a final rule or rules by the commission, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:
 - (1) On the website of the commission; and
 - (2) On the website of each compact states' psychology regulatory authority or the publication in which each state would otherwise publish proposed rules.
5. The notice of proposed rulemaking shall include:
 - (1) The proposed time, date, and location of the meeting in which the rule will be considered and voted upon;
 - (2) The text of the proposed rule or amendment and the reason for the proposed rule;
 - (3) A request for comments on the proposed rule from any interested person;
 - (4) The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.
6. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.
7. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment if a hearing is requested by:
 - (1) At least twenty-five persons who submit comments independently of each other;
 - (2) A governmental subdivision or agency; or
 - (3) A duly appointed person in an association that has at least twenty-five members.
8. (1) If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time, and date of the scheduled public hearing.
 - (2) All persons wishing to be heard at the hearing shall notify the executive director of the commission or other designated member in writing of their desire to appear and testify at the hearing not less than five business days before the scheduled date of the hearing.
 - (3) Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.
 - (4) No transcript of the hearing is required, unless a written request for a transcript is made, in which case the person requesting the transcript shall bear the cost of producing the transcript. A recording may be made in lieu of a transcript under the same terms and conditions as a transcript. This subdivision shall not preclude the commission from making a transcript or recording of the hearing if it so chooses.
 - (5) Nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.
9. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.
10. The commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.
11. If no written notice of intent to attend the public hearing by interested parties is received, the commission may proceed with promulgation of the proposed rule without a public hearing.
12. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in the compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that shall be adopted immediately in order to:
 - (1) Meet an imminent threat to public health, safety, or welfare;
 - (2) Prevent a loss of commission or compact state funds;
 - (3) Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule; or
 - (4) Protect public health and safety.
13. (1) The commission or an authorized committee of the commission may direct revisions to a previously

adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule.

(2) A challenge shall be made in writing, and delivered to the chair of the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

337.155. Oversight, dispute resolution and enforcement.

1. (1) The executive, legislative, and judicial branches of state government in each compact state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a compact state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the commission.

(3) The commission shall be entitled to receive service of process in any such proceeding, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission shall render a judgment or order void as to the commission, this compact or promulgated rules.

2. (1) If the commission determines that a compact state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(a) Provide written notice to the defaulting state and other compact states of the nature of the default, the proposed means of remedying the default or any other action to be taken by the commission; and

(b) Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to remedy the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the compact states, and all rights, privileges, and benefits conferred by this compact shall be terminated on the effective date of termination. A remedy of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be submitted by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the compact states.

(4) A compact state which has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations which extend beyond the effective date of termination.

(5) The commission shall not bear any costs incurred by the state which is found to be in default or which has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the U.S. District Court for the state of Georgia or the federal district where the compact has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees.

3. (1) Upon request by a compact state, the commission shall attempt to resolve disputes related to the compact which arise among compact states and between compact and noncompact states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes that arise before the commission.

4. (1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) By majority vote, the commission may initiate legal action in the United States District Court for the State of Georgia or the federal district where the compact has its principal offices against a compact state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

337.160. Date of implementation of the psychology interjurisdictional compact commission and associated rules, withdrawal, and amendment.

1. The compact shall come into effect on the date on which the compact is enacted into law in the seventh compact state. The provisions which become effective at that time shall be limited to the powers granted to the commission

relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.

2. Any state which joins the compact subsequent to the commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule which has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

3. (1) Any compact state may withdraw from this compact by enacting a statute repealing the same.

(2) A compact state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(3) Withdrawal shall not affect the continuing requirement of the withdrawing state's psychology regulatory authority to comply with the investigative and adverse action reporting requirements of sections 337.100 to 337.170* prior to the effective date of withdrawal.

4. Nothing contained in this compact shall be construed to invalidate or prevent any psychology licensure agreement or other cooperative arrangement between a compact state and a noncompact state which does not conflict with the provisions of this compact.

5. This compact may be amended by the compact states. No amendment to this compact shall become effective and binding upon any compact state until it is enacted into the law of all compact states.

(7) Except as noted in section (6) hereof, the committee shall not accept, or recognize, as counting towards the required period of post-degree supervision, any time during which the provisional licensee may have been or was providing psychological services under the supervision of some person prior to the time the identity of such person had first been disclosed by the timely filing of a revised and/or amended plan of post-degree supervision.

If the applicant desires this special approval, s/he shall have his/her supervisor submit a written detailed description of the proposed program of supervised professional experience. The psychological activities of the applicant must be performed pursuant to the supervisor's order, control and full professional responsibility. Professional reports prepared by the applicant during the period of the supervised professional experience must be cosigned by the supervisor. All requests shall be submitted on the forms provided by the committee and accompanied by the prior review fee for post-degree supervision. All requests must be submitted to the committee thirty (30) days prior to a regularly scheduled committee meeting in order to be reviewed at that meeting.

(B) Jurisprudence Examination. A jurisprudence examination based on Missouri law and regulations governing the practice of psychology, professional affairs, and ethics will be administered each year at sites, dates, and times approved by the committee.

20 CSR 2235-2.080 Non-Licensed Persons Engaging in Activities Defined as the Practice of Psychology

PURPOSE: This rule defines the restrictions of non-licensed persons engaging in activities defined as the practice of psychology and any licensee associated with the practice of such person.

(1) A person who does not hold a license to practice as a psychologist but who nonetheless may engage in activities defined as the practice of psychology under the provisions of section 337.045(3), RSMo, and any licensee associated with the practice of such a person, shall abide by the following restrictions:

(A) Psychological Trainee. A trainee shall neither deliver psychological services nor be requested to deliver psychological services, but may participate in the delivery of services by a licensed psychologist. Patient records shall document disclosure of the psychological trainee's status and reflect the activities of the psychological trainee. Training is part of the educational process and not an alternative to licensure;

(B) Psychological Intern. A psychological intern may deliver psychological services, in accordance with the requirements of a degree program, under the immediate supervision of a licensed psychologist who has complete responsibility for the needs of the patient and the actions of the psychological intern. Patient records must reflect the activities of the intern and be signed by the responsible psychologist. Patient records must document disclosure of the psychological intern's status and the responsibility of the supervising psychologist. Internships are part of the educational process, and are not an opportunity to practice psychology without a license;

(C) Psychological Resident. A psychological resident may deliver psychological services under the supervision of a licensed psychologist who has complete responsibility for the needs of the patient and the actions of the psychological resident. Patient records must reflect the activities of the resident, and be signed by the responsible psychologist. Patient records shall document disclosure of the psychological resident's status and the responsibility of the supervising psychologist. The practice of psychology by a resident is done under close supervision to ensure the protection of the public and to permit the profession to judge the qualifications of the resident. It is done to determine fitness for licensure, and is not intended to allow the practice of psychology without a license;

(D) Psychological Assistant. A psychological assistant's practice shall be under the supervision of a licensed psychologist. Patient records must reflect the activities of the assistant, and be signed by the responsible psychologist. Patient records shall document disclosure of the psychological assistant's status and the responsibility of the supervising psychologist. The assistant's practice is for the benefit of the patients treated during a brief period of time between residency and licensure. Continuity of patient care is the sole purpose of allowing a psychological assistant to deliver psychological services. New patients should not be accepted during this brief time period. Practice as a psychological assistant is not an alternative to licensure. A psychological assistant who is not provisionally licensed shall file a Supervision Agreement with the committee prior to acting as an assistant. A person working in the capacity of psychological assistant who is not provisionally licensed may do so for up to two (2) years from the date of formal approval of the Supervision Agreement by the committee;

(E) Qualified Assistant. The activities and functions of the qualified assistant are the full responsibility and liability of the licensed psychologist. Qualified assistants may not diagnose, interpret psychological tests, or perform psychotherapy. Patient records shall document disclosure of the status of the qualified assistant and reflect the activities of the qualified assistant. Nothing in this rule shall be construed to require a person who is otherwise exempt from licensure pursuant to section 337.045, RSMo, to act or otherwise serve as a qualified assistant; and

(F) Provisionally Licensed Psychologist. The scope of practice of a provisionally licensed psychologist is limited by section 337.020.5, RSMo, and the applicable limitations placed on either psychological residents or psychological assistants, whichever classification applies to the provisional licensee.

Rules of Conduct

**Title 20—DEPARTMENT OF COMMERCE AND
INSURANCE**
Division 2235—State Committee of Psychologists
Chapter 5—Rules of Conduct

20 CSR 2235-5.030 Ethical Rules of Conduct

PURPOSE: This rule complies with section 337.050, RSMo which allows the committee through the division to promulgate ethical principles governing the practice of psychology.

(1) General Principles.

(A) Purpose. The ethical rules of conduct constitute the standards against which the required professional conduct of a psychologist is measured.

(B) Scope. The psychologist shall be governed by these ethical rules of conduct whenever providing psychological services in any context. These ethical rules of conduct shall apply to the conduct of all licensees and applicants, including the applicant's conduct during the period of education, training and employment which is required for licensure. The term psychologist, as used within these ethical rules of conduct, shall be interpreted accordingly whenever psychological services are being provided in any context.

(C) Responsibility for Own Actions. The psychologist, when functioning as a licensed psychologist, shall be fully responsible for his/her own professional decisions and professional actions.

(D) Violations. A violation of these ethical rules of conduct constitutes unprofessional conduct and is sufficient reason for disciplinary action or denial of either original licensure, reinstatement or renewal of licensure.

(E) Aids to Interpretation. *The Ethical Principles of Psychologists, Code of Conduct, Standards of Providers of Psychological Services and Specialty Guidelines for the Delivery of Psychological Services*, (publication date August, 1990) promulgated by the American Psychological Association and the *Code of Conduct* (publication date August, 1990) promulgated by the Association of State and Provincial Psychology Boards, shall be used as an aid in resolving ambiguities which may arise in the interpretation of the ethical rules of conduct, except that these ethical rules of conduct shall prevail whenever any conflict exists between these rules and any professional association standard. *The Ethical Principles of Psychologists and Code of Conduct, Standards of Providers of Psychological Services and Specialty Guidelines for the Delivery of Psychological Services* can be obtained from the American Psychological Association, 750 First Street, NE, Washington, DC 20002-4242, or by calling (800) 374-2721. *The Code of Conduct* can be obtained by contacting the Association of State and Provincial Psychology Boards, PO Box 241245, Montgomery, AL 36124-1245 or by calling (334) 832-4580.

(2) Definitions.

(A) Client—means a receiver of psychological services. A corporate entity or other organization can be a client when the professional contract is to provide services of benefit primarily to the organization rather than to individuals. In the case of individuals with legal guardians, including minors and legally incompetent adults, the legal guardian shall be the client for decision making purposes, except that the individual receiving services shall be the client for:

1. Issues directly affecting the physical or emotional safety of the individual, such as sexual or other exploitative multiple relationships; and

2. Issues specifically reserved to the individual, and agreed to by the guardian prior to rendering of services, such as confidential communication in a therapy relationship.

(B) Confidential information—means information revealed by an individual(s) or otherwise obtained by a psychologist, where there is a reasonable expectation that because of the relationship between the individual(s) and the psychologist, or the circumstances under which the information was revealed or obtained, the information shall not be disclosed by the psychologist without the informed written consent of the individual(s). When a corporation or other organization is the client, rules of confidentiality apply to information pertaining to the organization, including personal information about individuals when obtained in the proper course of that contract. That information about individuals is subject to confidential control of the organization, not of the individual, and can be made available to the organization, unless there is reasonable expectation by that individual that information was obtained in a separate professional relationship with that individual and is therefore subject to confidentiality requirements in itself.

(C) Court order—means the written or oral communication of a member of the judiciary, or other court magistrate or administrator, if that authority has been lawfully delegated to that magistrate or administrator.

(D) Licensed—means licensed, certified, registered, or any other term when such term identifies a person whose professional behavior is subject to regulation by the committee.

(E) Professional relationship—means a mutually agreed upon relationship between a psychologist and a client(s) for the purpose of the client(s) obtaining the psychologist's professional expertise.

(F) Professional service—means all actions of the psychologist in the context of a professional relationship with a client.

(G) Supervisee—means any person, including a psychological trainee, psychological intern, psychological resident, provisionally licensed psychologist, psychological assistant and qualified assistant who functions under the extended authority of the psychologist to provide, or while in training to

provide, psychological services.

(3) Competence.

(A) Limits on Practice. The psychologist shall limit practice and supervision to the areas in which competence has been gained through professional education, training derived through an organized training program and supervised professional experience. If important aspects of the client's problems fall outside the boundaries of competency, then the psychologist shall assist his/her client in obtaining additional professional consultation.

(B) Maintaining Competency. The psychologist shall maintain current competency in the areas in which s/he practices, through continuing education, consultation, other training, or any combination of these, in conformance with current standards of scientific and professional knowledge.

(C) Adding New Services and Techniques.

1. The psychologist, when developing competency in a new service or technique, shall engage in ongoing consultation with other psychologists or relevant professionals and shall seek appropriate education, training, supervised experience or all of the above in the new area, service or technique. The psychologist shall inform any client whose treatment will involve a newly developing service or technique of its innovative nature and the known risks associated with it, and of the client's right to freedom of choice concerning services received.

2. In those emerging areas without generally recognized standards for preparatory training, psychologists shall take reasonable steps to ensure the competence of their work and to protect clients/patients, organizational clients, and others from harm.

3. When assuming forensic roles, psychologists shall become familiar with the judicial or administrative rules governing the psychologists' roles and seek relevant consultation and training.

4. In emergencies, psychologists may provide services to individuals for whom no other services are available, even if the psychologist may not have obtained the necessary training, provided such services are designed to assure that needed services are not denied. These services are terminated as soon as the emergency has ended and/or appropriate services are available.

(D) Accurate Representation. A psychologist shall accurately represent his/her areas of competence, education, training, experience, and professional affiliations to the committee, the public, and colleagues.

(E) Sufficient Professional Information. A psychologist rendering a formal professional opinion about a person, for example about the fitness of a parent in a custody hearing, shall not do so without direct and substantial professional contact with or a formal assessment of that person or a detailed explanation of why such contact did not occur.

(4) Maintenance and Retention of Records.

(A) The psychologist rendering professional individual services to a client (or a dependent), or services billed to a third party payer, shall maintain professional records that include:

1. Name of the client and other identifying information such as address, telephone number, age, and/or sex;

2. The presenting problem(s) or purpose or diagnosis;

3. Any assessment including test results or other evaluative results obtained and any basic test data from which they were derived;

4. The date and description of each contact or service provided or pertaining to the client;

5. The nature, type and goals of any psychological interventions;

6. The fee arrangement and documentation of discussion with client prior to initiation of services;

7. A copy of all test or other evaluative reports prepared as part of the professional relationship;

8. Notation and results of formal consults with other providers;

9. Notation of referrals given or recommended to the client;

10. Any releases executed by the client;

11. Records shall contain data relating to financial transactions between the psychologist and client, including fees assessed and collected;

12. Written informed consent must be obtained concerning all aspects of services including assessment and therapy;

13. A provisionally licensed psychologist must include on the informed consent the fact that the provisional licensee is working under the supervision of a licensed psychologist. The informed consent form must identify the supervising psychologist; and

14. Entries in the records must be made within ten (10) days following each consultation or rendition of service. Entries that are made after the date of service must indicate the date entries are made, as well as the date of service.

(B) To meet the requirements of these rules, but not necessarily for other legal purposes, the psychologist shall assure that all data entries in the professional records are maintained for a period of not fewer than five (5) years after the last date of service rendered, or not less than the time required by other regulations, if that is longer.

1. The psychologist shall store and dispose of written, electronic and other records in such a manner as to ensure their confidentiality. The psychologist shall maintain the confidentiality of all psychological records in the psychologist's possession or under the psychologist's control except as otherwise provided by law or pursuant to authorization of a client specifically requesting or authorizing release or disclosure of the client's psychological records; and

2. For each person professionally supervised, the psychologist shall maintain, for a period of not less than five (5) years after the last date of supervision, a record of the supervisory session that shall include the type, place, and general content of the session, as well as other information required by these rules, other law or good practice.

(5) Continuity of Care.

(A) The psychologist shall make prior arrangements for another appropriate professional(s) to be available for consultation during periods of his/her extended absences from professional availability. The psychologist shall inform the client of available emergency services for use during those times when s/he cannot be reached. These periods include, but are not limited to, after-office hours, weekends, holidays or vacations.

(B) The psychologist shall make provisions for the transfer or disposal of all written or electronic records of the client in the event of the psychologist's death or incapacitation.

(6) Multiple Relationships.

(A) Impaired Psychologist. The psychologist shall not undertake or continue a professional relationship with a client when the competency of the psychologist, is or could reasonably be expected to be impaired due to mental, emotional, physiologic, pharmacologic or substance abuse conditions. If a condition develops after a professional relationship has been initiated, the psychologist shall terminate the relationship in an appropriate manner, shall notify the client in writing of the termination and shall assist the client in obtaining services from another professional.

(B) Multiple Relationship Affecting Psychologist's Judgment. The psychologist shall not undertake or continue a professional relationship with a client when the objectivity or competency of the psychologist is, or could reasonably be expected to be impaired because of the psychologist's present or previous familial, social, sexual, emotional, financial, supervisory, political, administrative or legal relationship with the client or a relevant person associated with or related to the client. If a dual relationship develops or is discovered after the professional relationship has been initiated, the psychologist shall terminate the professional relationship in an appropriate manner, shall notify the client in writing of this termination and shall assist the client in obtaining services from another professional.

(C) Prohibited Relationships.

1. The psychologist, in interacting with any current client or with a client to whom the psychologist has at anytime within the previous twenty-four (24) months rendered counseling, psychotherapeutic or other professional psychological services for the treatment or amelioration of emotional distress or behavioral inadequacy, shall not enter into a financial

or other potentially exploitative relationship with him/her/them.

2. The psychologist, in interacting with any current client or with a person to whom the psychologist at any time within the previous sixty (60) months has rendered counseling, psychotherapeutic or other professional psychological services for the treatment or amelioration of emotional distress or behavioral inadequacy, shall not—

A. Engage in sexual intercourse, which includes any genital contact of the psychologist with the client or the client with the psychologist. This specifically prohibits sexual intercourse, sodomy—oral, anal copulation, or both; or any penetration of the anal opening by any one (1) part or object;

B. Engage in kissing with the mouth, lips or tongue of the psychologist with the client or the client with the psychologist;

C. Touching or caressing by either the psychologist or client of the other person's breasts, genitals or buttocks;

D. Engage in any deliberate or repeated comments, gestures or physical contact of a sexual nature that exploits the professional relationship with the client;

E. Terminate a therapeutic relationship with a client or student for the purpose, expressed or implied, of having a sexual relationship with that person;

F. Exhibitionism and voyeurism—exposing one's self or encouraging another to expose him/herself for the purpose of sexual gratification; or

G. Engage in any verbal or physical behavior toward him/her which is sexually seductive, demeaning, or harassing.

3. Prohibited exploitation in professional relationships. The psychologist shall not exploit, sexually or otherwise, his/her professional relationship with clients, supervisees, students, employees, research participants or others.

(7) Client Welfare.

(A) Providing Explanation of Procedures.

1. The psychologist shall give a truthful, understandable and reasonably complete account of the client's condition to the client or the parent of minor children or legal guardian. The psychologist shall keep the client fully informed as to the purpose and nature of any evaluation, treatment or other procedures, and of the client's right to freedom of choice regarding services provided.

2. When a psychologist agrees to provide services to a person or entity at the request of a third party, the psychologist shall explain and document the nature of the relationships with all individuals or organizations involved. This includes the role of the psychologist, who is the client, the probable uses of the services provided or the information obtained, and

any known or probable limits to confidentiality.

(B) Termination of Services. Whenever professional services are terminated, the psychologist shall provide alternative sources of professional services or assistance when indicated. The psychologist shall terminate a professional relationship when it is reasonably clear that the client is not benefitting from the relationship, and shall prepare the client appropriately for such termination.

(C) Unnecessary Service. The psychologist shall not exploit clients by providing unnecessary psychological service.

(D) Stereotyping. The psychologist shall not impose on the client any stereotypes of behavior, values or roles related to age, gender, religion, race, disability, nationality or sexual preference which would interfere with the objective provision of psychological services to the client. The psychologist obtains training, experience or counsel to assure competent service or research relating to these persons.

(E) Sexual or Other Multiple Relations With a Client. The psychologist shall not enter into a sexual or other multiple relationship with a client, as specified in subsections (6)(B) and (C) of these ethical rules of conduct.

(F) Solicitation of Business by Clients. The psychologist providing services to an individual client shall not induce that client(s) to solicit business on behalf of the psychologist.

(G) Referrals on Request. The psychologist shall make an appropriate referral to another professional when requested to do so by the client.

(H) Offering Services to Clients of Others. In deciding whether to offer services to someone already receiving similar services elsewhere, the psychologist shall carefully consider the treatment issues and the potential client's welfare. The psychologist shall discuss these issues with the client to minimize the probable risks of confusion and conflict, and proceed with caution and sensitivity to the therapeutic issues.

(8) Welfare of Supervisees, Clients, Research Subjects and Students.

(A) Welfare of Supervisees and Students. The psychologist shall not harass or exploit a supervisee or student in any way—sexually, financially or otherwise. The psychologist as a teacher shall recognize that the primary obligation is to help others acquire knowledge and skill. The psychologist shall maintain high standards of scholarship by presenting psychological information objectively, fully and accurately. The teaching duties of the psychologist shall be performed on the basis of careful preparation so that the instruction is accurate, current and scholarly.

(B) Welfare of Clients and Research Subjects.

1. Clarifying expectations. The psychologist shall document that the client has been informed as to the purpose and nature of an evaluation, research,

treatment or educational procedure as well as reasonable alternatives in language commensurate with the individual's level of comprehension.

2. Minors and those with diminished capacity. Whenever possible, the psychologist shall obtain informed consent from children and from individuals with diminished mental capacity regarding their participation in psychological services or research. If they object to participation, the psychologist shall consider the individual's basic rights in light of those factors such as age, psychological maturity and the judgment of the individual's parents or legal guardians. The psychologist's decision shall be based upon the best interests of the individual.

3. Voluntary and mandatory procedures. The psychologist shall inform recipients as to the voluntary or mandatory nature of the assessment, treatment, research, educational or training procedure. When a procedure is voluntary, the psychologist shall inform the clients, students or research participants of their freedom of choice and any alternatives to participation.

4. Electronic recording and filming. The psychologist shall obtain permission from clients, students and research participants prior to the use of observation or electronic taping, recording or filming procedures.

5. Access to confidential information of others. When the possibility exists that others may obtain access to confidential information, the psychologist shall explain this possibility, together with plans for protecting confidentiality, to clients, students or research participants as part of the procedure for obtaining informed consent.

6. Inducements for research participants. In offering clinical or other professional services as an inducement for obtaining research participants, the psychologist shall make clear the nature of the services as well as the risks and obligations.

7. Research involving risk or discomfort. When conducting research, the psychologist shall clearly communicate to participants the experience they are likely to have, especially those that they might find negative, such as physical risk or discomfort, or negative emotional reactions.

8. Freedom to avoid or withdraw from research. Individuals are ordinarily free to decline to participate or to withdraw from research without adverse consequences. When research participation is mandated by a third party, the psychologist shall describe the probable consequences of consenting, declining to participate or subsequently withdrawing from the research.

9. Protecting the right of the individual to avoid or withdraw from research. When the psychologist conducts research with individuals whose real or ascribed power is different than that of the psychologist, special care shall be taken to protect their rights to decline participation or withdraw from research.

10. Waiving informed consent.

A. Before deciding to waive informed consent, the psychologist planning research that may not require informed consent, such as certain types of archival research or anonymous naturalistic observations, shall consult with federal and state guidelines or human subject review committees.

B. When informed consent by a legally authorized person is not permitted or required by law, psychologists shall take reasonable steps to protect the individual's rights and welfare.

11. Research obligations and responsibilities. Prior to conducting research, the psychologist shall establish a clear and fair agreement with participants that clarifies the obligations and responsibilities of each party.

12. Post-research consultation with participants. The psychologist shall inform participants of procedures for contacting him/her, within a reasonable time period following participation, should stress, harm or related questions or concerns arise.

13. Provision of participants research results and conclusions. When conducting research, the psychologist shall provide participants, regardless of age or diminished mental capacity, with the opportunity to receive information about the general results and conclusions of that research.

14. The sharing and utilization of data. The psychologist shall clarify, in advance, the plans for sharing and utilizing research data with participants and any other persons.

15. Research planning. In planning a study, the psychologist shall carefully evaluate ethical acceptability. If the weighing of scientific and human values suggests the possibility of a violation of any principle, the psychologist shall seek ethical advice through peer consultation and institutional review boards, and observe stringent safeguards to protect the rights of human participants and the welfare of animal subjects.

16. Animal subjects' welfare. When working with animal subjects, the psychologist shall ensure that the animals will be treated humanely. The psychologist shall only inflict discomfort, illness or pain when the objectives of the research cannot be achieved by other methods. Any procedures that do inflict pain, stress or privation must be strongly justified by their prospective scientific, educational or applied value.

17. Assessment of risk level and protection of human participants. Assessing the degree of risk to research participants, according to recognized standards, is of primary ethical concern to the psychologist. Human participants shall be protected from physical and mental harm as well as any danger that may arise from research procedures.

18. Deception and debriefing. The psychologist shall not deceive human participants about the experience of participating in a study, especially

those aspects that subjects might find negative, such as physical risk, discomfort or unpleasant emotional experiences. Any deceptive aspects of a study shall be explained at the conclusion or earlier. Before conducting such a study, psychologists have a special responsibility to determine whether—

A. The use of deceptive techniques is justified by the study's prospective scientific, educational or applied value; and

B. Alternative procedures are available that do not use concealment or deception.

19. Minimizing invasiveness of data gathering. Interference with the milieu in which data are collected shall be kept to a minimum.

(9) Protecting Confidentiality of Clients.

(A) Informing Others of Legal Limits of Confidentiality. The psychologist shall inform clients at the outset of a professional relationship of those constraints on confidentiality that can be reasonably anticipated.

(B) Safeguarding Confidential Information. The psychologist shall safeguard the confidential information obtained in the course of practice, teaching, research or other professional duties. Psychologists who offer services, products or information via electronic transmission shall inform clients/patients of the risks to privacy and limits of confidentiality.

(C) Disclosure of Confidential Information. The psychologist shall disclose confidential information to others only with the informed written consent of the client with the exceptions as set forth here.

1. Disclosure without informed written consent. The psychologist may disclose confidential information without the informed written consent of the client when the psychologist judges that disclosure is necessary to protect against a clear and substantial risk of imminent serious harm being inflicted by the client on the client or on another person. In that case, the psychologist shall disclose the confidential information only to appropriate professional workers, public authorities, the potential victim, the family, or both, of the client. When the client is an organization, disclosure shall be made only after the psychologist has made a reasonable and unsuccessful attempt to have the problems corrected within the organization.

2. Use of interpreters. Psychologists using the services of an interpreter shall obtain informed consent from the client/patient to use that interpreter, shall ensure that confidentiality of test results and test security are maintained, and include in recommendation reports and diagnostic or evaluative statements, including forensic testimony, discussion or any limitations on the data obtained.

3. Legally dependent clients. At the beginning of a professional relationship, to the extent that the client can understand, the psychologist shall inform a client who is below the age of majority or who has a

legal guardian of the limit the law imposes on the right of confidentiality with respect to his/her communications with the psychologist.

4. Multiple clients. When service is rendered to more than one (1) client during a joint session, for example to a family or a couple or a parent and child or a group, the psychologist shall, at the beginning of the professional relationship, clarify to all parties the manner in which confidentiality will be handled. All parties shall be given opportunity to discuss and to accept whatever limitations of confidentiality will be adhered in the situation.

5. Release of confidential information. The psychologist may release confidential information upon court order, as defined in section (2) of this rule, or to conform with state or federal law or regulation.

6. Abuse reports of abuse of children and vulnerable adults. The psychologist shall be familiar with any relevant law concerning the reporting of abuse of children and vulnerable adults, and shall comply with the law.

7. Discussion of client information among professionals. When rendering psychological services as part of a team or when interacting with other appropriate professionals concerning the welfare of the client, the psychologist may share confidential information about the client provided the psychologist takes reasonable steps to assure that all persons receiving the information are informed about the confidential nature of the information and abide by the rules of confidentiality.

(D) Limited Access to Client Records. The psychologist shall limit access to client records and shall assure that all persons working under his/her authority comply with the requirements for confidentiality of client material.

(E) Disguising Confidential Information. For any confidential information used in teaching, research or writing, the psychologist shall insure that the reported material is appropriately disguised to prevent client identification.

(F) Observation and Electronic Recording. The psychologist shall ensure that diagnostic interviews or therapeutic sessions with a client are observed or electronically recorded only with the informed written consent of the client.

(G) Confidentiality After Termination of Professional Relationship. The psychologist shall continue to treat client records as confidential information after the professional relationship between the psychologist and the client has ceased.

(10) Integrity and Representation of Title and Services.

(A) Display of License. The psychologist shall display prominently on the premises of the professional practice the psychologist's current Missouri license to practice psychology.

(B) Use of Appropriate Title. When representing

him/herself to the public through advertisements, including telephone listings, business cards, letterhead and other public announcements, the psychologist shall use a title which accurately reflects professional education, training and experience. This title shall be clearly presented as to denote the actual status and training of the person. Initials of titles are not appropriate for use. For example, the title of Psychological Resident shall not be listed as P.R., the title of Clinical Psychologist shall not be listed as C.P., or the title of Provisional Licensed Psychologist shall not be listed as P.L.P. The use of initials for the highest earned relevant academic degree is acceptable.

(C) Accurate Representation of Services. When announcing or advertising professional services, the psychologist may list the following information to describe the provider and services provided: name, highest relevant academic degree earned from a regionally accredited institution, date, type and level of certification or licensure, diplomate status, American Psychological Association (APA) membership status, address, telephone number, office hours, a brief listing of the types of psychological services offered, an appropriate presentation of fee information, foreign languages spoken and a policy with regard to third-party payments. Psychologists licensed on the basis of a master's degree shall not advertise their services using a higher degree earned in a field other than psychology.

(D) Accurate Representation of Qualifications. The psychologist shall not misrepresent directly or by implication his/her professional qualifications, such as, education, experience or areas of competence.

(E) Accurate Representation of Affiliations. The psychologist shall not misrepresent directly or by implication his/her affiliations, or the purposes or characteristics of institutions and organizations with which the psychologist is associated.

(F) False or Misleading Information. The psychologist shall not include false or misleading information in public statements concerning psychological services offered. Public statements include, but are not limited to, communication by means of periodical, book, list, directory, television, radio or motion picture. They shall not contain:

1. A false, fraudulent, misleading, deceptive or unfair statement;

2. A misrepresentation of fact or a statement likely to mislead or deceive because in context it makes only a partial disclosure of relevant facts;

3. A testimonial from a client regarding the quality of a psychologist's services or products;

4. A statement intended or likely to create false or unjustified expectations of favorable results;

5. A statement implying unusual, unique or one-of-a-kind abilities;

6. A statement intended or likely to appeal to a client's fears, anxieties or emotions concerning the

possible results of failure to obtain the offered services;

7. A statement concerning the comparative desirability of offered services; or

8. A statement of direct solicitation of individual clients.

2. Health care providers may condition the furnishing of the patient’s health care records to the patient, the patient’s authorized representative or any other person or entity authorized by law to obtain or reproduce such records upon payment of a fee for:

(1) (a) Search and retrieval, in an amount not more than twenty-four dollars and eighty-five cents plus copying in the amount of fifty-seven cents per page for the cost of supplies and labor plus, if the health care provider has contracted for off-site records storage and management, any additional labor costs of outside storage retrieval, not to exceed twenty-three dollars and twenty-six cents, as adjusted annually pursuant to subsection 5 of this section; or

(b) The records shall be furnished electronically upon payment of the search, retrieval, and copying fees set under this section at the time of the request or one hundred eight dollars and eighty-eight cents total, whichever is less, if such person:

Such treatment services may include in-home services, out-of-home placement, intensive twenty-four-hour treatment services, family counseling, parenting training and other best practices.

Children whose screenings indicate an area of concern may complete a comprehensive, in-depth health, psychodiagnostic, or developmental assessment within sixty days of entry into custody;

(6) "Director", the director of the Missouri children's division within the department of social services;

(7) "Division", the Missouri children's division within the department of social services;

(8) "Family assessment and services", an approach to be developed by the children's division which will provide for a prompt assessment of a child who has been reported to the division as a victim of abuse or neglect by a person responsible for that child's care, custody or control and of that child's family, including risk of abuse and neglect and, if necessary, the provision of community-based services to reduce the risk and support the family;

(9) "Family support team meeting" or "team meeting", a meeting convened by the division or children's services provider in behalf of the family and/or child for the purpose of determining service and treatment needs, determining the need for placement and developing a plan for reunification or other permanency options, determining the appropriate placement of the child, evaluating case progress, and establishing and revising the case plan;

(12) "Neglect", failure to provide, by those responsible for the care, custody, and control of the child, the proper or necessary support, education as required by law, nutrition or medical, surgical, or any other care necessary for the child's well-being. Victims of neglect shall also include any victims of sex trafficking or severe forms of trafficking as those terms are defined in 22 U.S.C. 78 Section 7102(9)-(10);

(13) "Preponderance of the evidence", that degree of evidence that is of greater weight or more convincing than the evidence which is offered in opposition to it or evidence which as a whole shows the fact to be proved to be more probable than not;

(2007) Provisions of this section requiring inclusion in the central registry before a finding of abuse or neglect by a preponderance of the evidence by the child Abuse and Neglect Review Board violate due process, and are invalid. *Jamison v. State*, 218 S.W.3d 399 (Mo.banc).

210.115. Reports of abuse, neglect, and under age eighteen deaths — persons required to report — supervisors and administrators not to impede reporting — deaths required to be reported to the division or child fatality review panel, when — report made to another state, when.

1. When any physician, medical examiner, coroner, dentist, chiropractor, optometrist, podiatrist, resident, intern, nurse, hospital or clinic personnel that are engaged in the examination, care, treatment or research of persons, and any other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child-care worker, juvenile officer, probation or parole officer, jail or detention center personnel, teacher, principal or other school official, minister as provided by section 352.400, peace officer or law enforcement official, or other person with responsibility for the care of children has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which

would reasonably result in abuse or neglect, that person shall immediately report to the division in accordance with the provisions of sections 210.109 to 210.183. No internal investigation shall be initiated until such a report has been made. As used in this section, the term "**abuse**" is not limited to abuse inflicted by a person responsible for the child's care, custody and control as specified in section 210.110, but shall also include abuse inflicted by any other person.

2. If two or more members of a medical institution who are required to report jointly have knowledge of a known or suspected instance of child abuse or neglect, a single report may be made by a designated member of that medical team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter immediately make the report. Nothing in this section, however, is meant to preclude any person from reporting abuse or neglect.

3. The reporting requirements under this section are individual, and no supervisor or administrator may impede or inhibit any reporting under this section. No person making a report under this section shall be subject to any sanction, including any adverse employment action, for making such report. Every employer shall ensure that any employee required to report pursuant to subsection 1 of this section has immediate and unrestricted access to communications technology necessary to make an immediate report and is temporarily relieved of other work duties for such time as is required to make any report required under subsection 1 of this section.

4. Notwithstanding any other provision of sections 210.109 to 210.183, any child who does not receive specified medical treatment by reason of the legitimate practice of the religious belief of the child's parents, guardian, or others legally responsible for the child, for that reason alone, shall not be found to be an abused or neglected child, and such parents, guardian or other persons legally responsible for the child shall not be entered into the central registry. However, the division may accept reports concerning such a child and may subsequently investigate or conduct a family assessment as a result of that report. Such an exception shall not limit the administrative or judicial authority of the state to ensure that medical services are provided to the child when the child's health requires it.

5. In addition to those persons and officials required to report actual or suspected abuse or neglect, any other person may report in accordance with sections 210.109 to 210.183 if such person has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect.

6. Any person or official required to report pursuant to this section, including employees of the division, who has probable cause to suspect that a child who is or may be under the age of eighteen, who is eligible to receive a certificate of live birth, has died shall report that fact to the appropriate medical examiner or coroner. If, upon review of the circumstances and medical information, the medical examiner or coroner determines that the child died of natural causes while under medical care for an established natural disease, the coroner, medical examiner or physician shall notify the division of the child's death and that the child's attending physician shall be signing the death certificate. In all other cases, the medical examiner or coroner shall accept the report for investigation, shall immediately notify the division of the child's death as required in section 58.452 and shall report the findings to the child fatality review panel established pursuant to section 210.192.

7. Any person or individual required to report may also report the suspicion of abuse or neglect to any law enforcement agency or juvenile office. Such report shall not, however, take the place of reporting to the division.

8. If an individual required to report suspected instances of abuse or neglect pursuant to this section has reason to believe that the victim of such abuse or neglect is a resident of another state or was injured as a result of an act which occurred in another state, the person required to report such abuse or neglect may, in lieu of reporting to the Missouri children's division, make such a report to the child protection agency of the other state with the authority to receive such reports pursuant to the laws of such other state. If such agency accepts the report, no report is required to be made, but may be made, to the children's division.

Any legally recognized privileged communication, except that between attorney and client or involving communications made to a minister or clergyperson, shall not apply to situations involving known or suspected child abuse or neglect and shall not constitute grounds for failure to report as required or permitted by sections 210.110 to 210.165, to cooperate with the division in any of its activities pursuant to sections 210.110 to 210.165, or to give or accept evidence in any judicial proceeding relating to child abuse or neglect.

This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly under chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2011, shall be invalid and void.

Military families and low-income individuals whose applications are approved shall not be required to pay any occupational fees that become due during the two-year period.

3. Any individual seeking a waiver described under subsection 2 of this section shall apply to the appropriate licensing authority in a format prescribed by the licensing authority. The licensing authority shall approve or deny the application within thirty days of receipt.

4. An individual shall be eligible to receive only one waiver under this section from each licensing authority.

5. The waiver described under subsection 2 of this section shall not apply to fees required to obtain business licenses.

6. State licensing authorities and the department of commerce and insurance shall promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

(L. 2018 H.B. 1719)

324.047. Guidelines for regulation of certain occupations and professions — definitions — limitation on state regulation, requirements — reports.

1. The purpose of this section is to promote general welfare by establishing guidelines for the regulation of occupations and professions not regulated prior to January 1, 2019, and guidelines for combining any additional occupations or professions under a single license regulated by the state prior to January 1, 2019.

2. For purposes of this section, the following terms mean:

(1) “Applicant group”, any occupational or professional group or organization, any individual, or any other interested party that seeks to be licensed or further regulated or supports any bill that proposes to combine any additional occupations or professions under a single license regulated by the state prior to January 1, 2019;

(2) “Certification”, a program in which the government grants nontransferable recognition to an individual who meets personal qualifications established by a regulatory entity. Upon approval, the individual may use “certified” as a designated title. This term shall not be synonymous with an occupational license;

(3) “Department”, the department of commerce and insurance;

(4) “Director”, the director of the division of professional registration;

(5) “Division”, the division of professional registration;

(6) “General welfare”, the concern of the government for the health, peace, morality, and safety of its residents;

(7) “Lawful occupation”, a course of conduct, pursuit, or profession that includes the sale of goods or services that are not themselves illegal to sell irrespective of whether the individual selling them is subject to an occupational regulation;

(8) “Least restrictive type of occupational regulation”, the regulation that is least restrictive, in which the following list of regulations in order from least to most restrictive is used to make such determination:

(a) Bonding or insurance;

(b) Registration;

(c) Certification;

(d) Occupational license;

(9) “Occupational license”, a nontransferable authorization in law for an individual to perform a lawful occupation for compensation based on meeting personal qualifications established by a regulatory entity and that, if not possessed, prohibits the individual from performing the occupation for compensation;

(10) “Occupational regulation”, a statute, ordinance, rule, practice, policy, or other law requiring an individual to possess certain personal qualifications to work in a lawful occupation;

(11) “Personal qualifications”, criteria related to an individual's personal background, including completion of an approved educational program, satisfactory performance on an examination, work experience, criminal history, and completion of continuing education;

(12) “Practitioner”, an individual who has achieved knowledge and skill by practice and is actively engaged in a specified occupation or profession;

(13) “Registration”, a requirement established by the general assembly in which an individual:

(a) Submits notification to a state agency; and

(b) May use “registered” as a designated title.

Notification may include the individual's name and address, the individual's agent for service of process, the location of the activity to be performed, and a description of the service the individual provides. Registration may include a requirement to post a bond but does not include education or experience requirements. If the requirement of registration is not met, the individual is prohibited from performing the occupation for compensation or using “registered” as a designated title. The term “registration” shall not be synonymous with an occupational license;

(14) “Regulatory entity”, any board, commission, agency, division, or other unit or subunit of state government that regulates one or more professions, occupations, industries, businesses, or other endeavors in this state;

(15) “State agency”, every state office, department, board, commission, regulatory entity, and agency of the

state. The term “state agency” includes, if provided by law, programs and activities involving less than the full responsibility of a state agency;

(16) “Substantial burden”, a requirement in an occupational regulation that imposes significant difficulty or cost on an individual seeking to enter into or continue in a lawful occupation and is more than an incidental burden.

3. All individuals may engage in the occupation of their choice, free from unreasonable government regulation. The state shall not impose a substantial burden on an individual's pursuit of his or her occupation or profession unless there is a reasonable interest for the state to protect the general welfare. If such an interest exists, the regulation adopted by the state shall be the least restrictive type of occupational regulation consistent with the public interest to be protected.

4. All bills introduced in the general assembly to regulate, pursuant to subsection 6 of this section, an occupation or profession shall be reviewed according to the following criteria. An occupation or profession shall be regulated by the state if:

(1) Unregulated practice could cause harm and endanger the general welfare, and the potential for further harm and endangerment is recognizable;

(2) The public can reasonably be expected to benefit from an assurance of personal qualifications; and

(3) The general welfare cannot be sufficiently protected by other means.

5. After evaluating the criteria in subdivision (3) of this subsection and considering governmental, economic, and societal costs and benefits, if the general assembly finds that the state has a reasonable interest in regulating, pursuant to subsection 6 of this section, an occupation or profession not previously regulated by law, the most efficient form of regulation shall be implemented, consistent with this section and with the need to protect the general welfare, as follows:

(1) If the threat to the general welfare resulting from the practitioner's services is easily predictable, the regulation shall implement a system of insurance, bonding, or registration;

(2) If the consumer has challenges accessing credentialing information or possesses significantly less information on how to report abuses such that the practitioner puts the consumer in a disadvantageous position relative to the practitioner to judge the quality of the practitioner's services, the regulation shall implement a system of certification; and

(3) If other regulatory structures, such as bonding, insurance, registration, and certification, insufficiently protect the general welfare from recognizable harm, the regulation shall implement a system of licensing.

6. After January 1, 2019, any relevant regulatory entity shall report, and the department shall make available to the general assembly, upon the filing of a bill that proposes additional regulation of a profession or occupation currently regulated by the regulatory entity, the following factors to the department:

(1) A description of the professional or occupational group proposed for expansion of regulation, including the number of individuals or business entities that would be subject to regulation to the extent that such information is available; the names and addresses of associations, organizations, and other groups representing the practitioners; and an estimate of the number of practitioners in each group;

(2) Whether practice of the profession or occupation proposed for expansion of regulation requires such a specialized skill that the public is not qualified to select a competent practitioner without assurances that minimum qualifications have been met;

(3) The nature and extent of potential harm to the public if the profession or occupation is not regulated as described in the bill, the extent to which there is a threat to the general welfare, and production of evidence of potential harm, including a description of any complaints filed with state law enforcement authorities, courts, departmental agencies, professional or occupational boards, and professional and occupational associations that have been lodged against practitioners of the profession or occupation in this state within the past five years. Notwithstanding the provisions of this section or any other section, the relevant regulatory entity shall provide, and the department shall make available to the general assembly, the information relating to such complaints even if the information is considered a closed record or otherwise confidential; except that, the regulatory entity and the department shall redact names and other personally identifiable information from the information released;

(4) A description of the voluntary efforts made by practitioners of the profession or occupation to protect the public through self-regulation, private certifications, membership in professional or occupational associations, or academic credentials and a statement of why these efforts are inadequate to protect the public;

(5) The extent to which expansion of regulation of the profession or occupation will increase the cost of goods or services provided by practitioners and the overall cost-effectiveness and economic impact of the proposed regulation, including the direct cost to the government and the indirect costs to consumers;

(6) The extent to which expansion of regulation of the profession or occupation would increase or decrease the availability of services to the public;

(7) The extent to which existing legal remedies are inadequate to prevent or redress the kinds of harm

potentially resulting from the lack of the requirements outlined in the bill;

(8) Why bonding and insurance, registration, certification, occupational license to practice, or another type of regulation is being proposed, why that regulatory alternative was chosen, and whether the proposed method of regulation is appropriate;

(9) A list of other states that regulate the profession or occupation, the type of regulation, copies of other states' laws, and available evidence from those states of the effect of regulation on the profession or occupation in terms of a before-and-after analysis;

(10) The details of any previous efforts in this state to implement regulation of the profession or occupation;

(11) Whether the proposed requirements for regulation exceed the national industry standards of minimal competence, if such standards exist, and what those standards are if they exist; and

(12) The method proposed to finance the proposed regulation and financial data pertaining to whether the proposed regulation can be reasonably financed by current or proposed licensees through dedicated revenue mechanisms.

7. If no existing regulatory entity regulates the occupation or profession to be regulated in the bill, the department shall report and make available to the general assembly, upon the filing of a bill after January 1, 2019, that proposes new regulation of a profession or occupation, the following factors:

(1) A description of the professional or occupational group proposed for regulation, including the number of individuals or business entities that would be subject to regulation to the extent that such information is available; the names and addresses of associations, organizations, and other groups representing the practitioners; and an estimate of the number of practitioners in each group;

(2) The nature and extent of potential harm to the public if the profession or occupation is not regulated, the extent to which there is a threat to the general welfare, and production of evidence of potential harm, including a description of any complaints filed with state law enforcement authorities, courts, departmental agencies, professional or occupational boards, and professional and occupational associations that have been lodged against practitioners of the profession or occupation in this state within the past five years. Notwithstanding the provisions of this section or any other section, the department shall release the information relating to such complaints even if the information is considered a closed record or otherwise confidential; except that, the department shall redact names and other personally identifiable information from the information released;

(3) A list of other states that regulate the profession or occupation, the type of regulation, copies of other states' laws, and available evidence from those states of the effect of regulation on the profession or occupation in terms of a before-and-after analysis;

(4) The details of any previous efforts in this state to implement regulation of the profession or occupation; and

(5) Whether the proposed requirements for regulation exceed the national industry standards of minimal competence, if such standards exist, and what those standards are if they exist.

8. After January 1, 2019, applicant groups may report to the department, and the department shall make available to the general assembly, any of the information required in subsection 6 or 7 of this section and whether the profession or occupation plans to apply for mandated benefits.

Chapter 452

Dissolution of Marriage, Divorce, Alimony and Separate Maintenance

452.375. Custody — definitions — factors determining custody — prohibited, when — public policy of state — custody options — findings required, when — parent plan required — access to records — joint custody not to preclude child support — support, how determined — domestic violence or abuse, specific findings.

1. As used in this chapter, unless the context clearly indicates otherwise:

(1) “Custody” means joint legal custody, sole legal custody, joint physical custody or sole physical custody or any combination thereof;

(2) “Joint legal custody” means that the parents share the decision-making rights, responsibilities, and authority relating to the health, education and welfare of the child, and, unless allocated, apportioned, or decreed, the parents shall confer with one another in the exercise of decision-making rights, responsibilities, and authority;

(3) “Joint physical custody” means an order awarding each of the parents significant, but not necessarily equal, periods of time during which a child resides with or is under the care and supervision of each of the parents. Joint physical custody shall be shared by the parents in such a way as to assure the child of frequent, continuing and meaningful contact with both parents;

(4) “Third-party custody” means a third party designated as a legal and physical custodian pursuant to subdivision (5) of subsection 5 of this section.

2. The court shall determine custody in accordance with the best interests of the child. When the parties have not reached an agreement on all issues related to custody, the court shall consider all relevant factors and enter written findings of fact and conclusions of law, including, but not limited to, the following:

(1) The wishes of the child’s parents as to custody and the proposed parenting plan submitted by both parties;

(2) The needs of the child for a frequent, continuing and meaningful relationship with both parents and the ability and willingness of parents to actively perform their functions as mother and father for the needs of the child;

(3) The interaction and interrelationship of the child with parents, siblings, and any other person who may significantly affect the child’s best interests;

(4) Which parent is more likely to allow the child frequent, continuing and meaningful contact with the other parent;

(5) The child’s adjustment to the child’s home, school, and community;

(6) The mental and physical health of all individuals involved, including any history of abuse of any individuals

involved. If the court finds that a pattern of domestic violence as defined in section 455.010 has occurred, and, if the court also finds that awarding custody to the abusive parent is in the best interest of the child, then the court shall enter written findings of fact and conclusions of law. Custody and visitation rights shall be ordered in a manner that best protects the child and any other child or children for whom the parent has custodial or visitation rights, and the parent or other family or household member who is the victim of domestic violence from any further harm;

(7) The intention of either parent to relocate the principal residence of the child; and

(8) The wishes of a child as to the child's custodian. The fact that a parent sends his or her child or children to a home school, as defined in section 167.031, shall not be the sole factor that a court considers in determining custody of such child or children.

3. (1) In any court proceedings relating to custody of a child, the court shall not award custody or unsupervised visitation of a child to a parent if such parent or any person residing with such parent has been found guilty of, or pled guilty to, any of the following offenses when a child was the victim:

(a) A felony violation of section 566.030, 566.032, 566.031*, 566.060, 566.062, 566.064, 566.067, 566.068, 566.061*, 566.083, 566.101*, 566.100, 566.111, 566.151, 566.203, 566.206, 566.209, 566.211**, or 566.215;

(b) A violation of section 568.020;

(c) A violation of subdivision (2) of subsection 1 of section 568.060;

(d) A violation of section 568.065;

(e) A violation of section 573.200**;

(f) A violation of section 573.205**; or

(g) A violation of section 568.175.

(2) For all other violations of offenses in chapters 566 and 568 not specifically listed in subdivision (1) of this subsection or for a violation of an offense committed in another state when a child is the victim that would be a violation of chapter 566 or 568 if committed in Missouri, the court may exercise its discretion in awarding custody or visitation of a child to a parent if such parent or any person residing with such parent has been found guilty of, or pled guilty to, any such offense.

4. The general assembly finds and declares that it is the public policy of this state that frequent, continuing and meaningful contact with both parents after the parents have separated or dissolved their marriage is in the best interest of the child, except for cases where the court specifically finds that such contact is not in the best interest of the child, and that it is the public policy of this state to encourage parents to participate in decisions affecting the health, education and welfare of their children, and to resolve disputes involving their children amicably through alternative dispute resolution. In order to effectuate these policies, the court shall determine the custody arrangement which will best assure both parents participate in such decisions and have frequent, continuing and meaningful contact with their children so long as it is in the best interests of the child.

5. Prior to awarding the appropriate custody arrangement in the best interest of the child, the court shall consider each of the following as follows:

(1) Joint physical and joint legal custody to both parents, which shall not be denied solely for the reason that one parent opposes a joint physical and joint legal custody award. The residence of one of the parents shall be designated as the address of the child for mailing and educational purposes;

(2) Joint physical custody with one party granted sole legal custody. The residence of one of the parents shall be designated as the address of the child for mailing and educational purposes;

(3) Joint legal custody with one party granted sole physical custody;

(4) Sole custody to either parent; or

(5) Third-party custody or visitation:

(a) When the court finds that each parent is unfit, unsuitable, or unable to be a custodian, or the welfare of the child requires, and it is in the best interests of the child, then custody, temporary custody or visitation may be awarded to any other person or persons deemed by the court to be suitable and able to provide an adequate and stable environment for the child. Before the court awards custody, temporary custody or visitation to a third person under this subdivision, the court shall make that person a party to the action;

(b) Under the provisions of this subsection, any person may petition the court to intervene as a party in interest at any time as provided by supreme court rule.

6. If the parties have not agreed to a custodial arrangement, or the court determines such arrangement is not in the best interest of the child, the court shall include a written finding in the judgment or order based on the public policy in subsection 4 of this section and each of the factors listed in subdivisions (1) to (8) of subsection 2 of this section detailing the specific relevant factors that made a particular arrangement in the best interest of the child. If a proposed custodial arrangement is rejected by the court, the court shall include a written finding in the judgment or order detailing the specific relevant factors resulting in the rejection of such arrangement.

7. Upon a finding by the court that either parent has refused to exchange information with the other parent, which shall include but not be limited to information concerning the health, education and welfare of the child, the court

shall order the parent to comply immediately and to pay the prevailing party a sum equal to the prevailing party's cost associated with obtaining the requested information, which shall include but not be limited to reasonable attorney's fees and court costs.

8. As between the parents of a child, no preference may be given to either parent in the awarding of custody because of that parent's age, sex, or financial status, nor because of the age or sex of the child. The court shall not presume that a parent, solely because of his or her sex, is more qualified than the other parent to act as a joint or sole legal or physical custodian for the child.

9. Any judgment providing for custody shall include a specific written parenting plan setting forth the terms of such parenting plan arrangements specified in subsection 8 of section 452.310. Such plan may be a parenting plan submitted by the parties pursuant to section 452.310 or, in the absence thereof, a plan determined by the court, but in all cases, the custody plan approved and ordered by the court shall be in the court's discretion and shall be in the best interest of the child.

10. After August 28, 2016, every court order establishing or modifying custody or visitation shall include the following language: "In the event of noncompliance with this order, the aggrieved party may file a verified motion for contempt. If custody, visitation, or third-party custody is denied or interfered with by a parent or third party without good cause, the aggrieved person may file a family access motion with the court stating the specific facts that constitute a violation of the custody provisions of the judgment of dissolution, legal separation, or judgment of paternity. The circuit clerk will provide the aggrieved party with an explanation of the procedures for filing a family access motion and a simple form for use in filing the family access motion. A family access motion does not require the assistance of legal counsel to prepare and file."

11. No court shall adopt any local rule, form, or practice requiring a standardized or default parenting plan for interim, temporary, or permanent orders or judgments. Notwithstanding any other provision to the contrary, a court may enter an interim order in a proceeding under this chapter, provided that the interim order shall not contain any provisions about child custody or a parenting schedule or plan without first providing the parties with notice and a hearing, unless the parties otherwise agree.

12. Unless a parent has been denied custody rights pursuant to this section or visitation rights under section 452.400, both parents shall have access to records and information pertaining to a minor child including, but not limited to, medical, dental, and school records. If the parent without custody has been granted restricted or supervised visitation because the court has found that the parent with custody or any child has been the victim of domestic violence, as defined in section 455.010, by the parent without custody, the court may order that the reports and records made available pursuant to this subsection not include the address of the parent with custody or the child. Unless a parent has been denied custody rights pursuant to this section or visitation rights under section 452.400, any judgment of dissolution or other applicable court order shall specifically allow both parents access to such records and reports.

13. Except as otherwise precluded by state or federal law, if any individual, professional, public or private institution or organization denies access or fails to provide or disclose any and all records and information, including, but not limited to, past and present dental, medical and school records pertaining to a minor child, to either parent upon the written request of such parent, the court shall, upon its finding that the individual, professional, public or private institution or organization denied such request without good cause, order that party to comply immediately with such request and to pay to the prevailing party all costs incurred, including, but not limited to, attorney's fees and court costs associated with obtaining the requested information.

14. An award of joint custody does not preclude an award of child support pursuant to section 452.340 and applicable supreme court rules. The court shall consider the factors contained in section 452.340 and applicable supreme court rules in determining an amount reasonable or necessary for the support of the child.

15. If the court finds that domestic violence or abuse as defined in section 455.010 has occurred, the court shall make specific findings of fact to show that the custody or visitation arrangement ordered by the court best protects the child and the parent or other family or household member who is the victim of domestic violence, as defined in section 455.010, and any other children for whom such parent has custodial or visitation rights from any further harm.
